

## **Home**

Thank you for visiting the website of WholeLife Dentistry, where our practice revolves around you. Dr. Vallejo and his team are committed to providing quality, health conscious dentistry for patients of all ages. Our state-of-the-art practice is conveniently located in Plantation, FL, proudly serving residents of Davie, Pembroke Pines, Sunrise, and other area communities.

### ***Our commitment to you***

Our practice is named WholeLife Dentistry for a reason; it describes our philosophy. We perform a comprehensive exam, including blood pressure check, oral cancer screening, checking thyroids, and other health concerns beyond standard dental care. Dr. Vallejo comes from a family of physicians, and has a special interest in the medical and health-oriented aspect of dentistry. You are not simply a set of teeth. You are a complete and unique human being, and you are treated as such in our office.

### ***Comprehensive care under one roof***

We provide a full range of services from children's dentistry to preventive care to smile makeovers – and much more. With an exceptional team, including an in-house periodontist, we can take care of most problems right here in our comfortable office. Our goal is to form a long-term relationship with our patients, helping each of them enjoy great smiles through every stage of life.

### ***Improving lives by improving smiles***

Our commitment to optimal health and safety is unwavering, but it is not our only concern. Your comfort and wellbeing are critical, because we don't think that caring for your smile should be an unpleasant experience. We use advanced technology and gentle techniques to ensure your comfort, and IV sedation is available. We also understand the importance of feeling confident and proud of your smile, and Dr. Vallejo trained under one of the top cosmetic dentists in the business, and he has worked to refine and perfect his artisan skills ever since.

### ***Let us help you love your smile***

Whether you are seeking cosmetic, restorative, or preventive care, you can count on the team at WholeLife Dentistry. Just call 954-382-0110 and we will be happy to schedule an appointment for you.
